

How to accept a Jetpay payment

What is Jetpay?

Jetpay is a secure, no-limit online payment processing company for B2B payments. Funds are transferred directly between bank accounts, similar to a wire transfer or eTransfer but with added security and specifically built for business transactions.

Getting paid through Jetpay

When you receive a Jetpay payment for the first time, you are asked to connect a bank account to get the money deposited into.

A few things you might be wondering about:

- By becoming a contact, the company who sent the invite will not be able to pull money from your account - only send money to it.
- You are not required to sign up for Jetpay.
- You will not be charged for any transactions you receive.
- You will be notified of every payment that is sent to your account along with a real-time tracking link.

How to accept a Jetpay payment

1. Follow the 'Accept Invitation' button in the email that was sent to you.
2. To accept the invitation, you require the answer to a security question provided by the company that sent the invite.
3. You will be prompted to authorize a bank account to receive funds.

Note: This will not allow the company who invited you to pull funds from your account - only send money to it. You will not be charged for accepting any payments.

You have two options to authorize your bank account:

a. 'Login Online' with online banking credentials

b. enter routing information with 'Enter Manually'

The screenshot shows the 'Authorize Bank' screen with a search bar and a grid of bank logos including Firio Capital, TD, RBC, BMO, Scotiabank, CIBC, National Bank, and Desjardins. There are 'Login Online' and 'Enter Manually' tabs at the top. A 'Next step' button is visible at the bottom right.

The screenshot shows the 'Authorize Bank' screen with manual entry fields for Institution #, Transit #, Account #, Account title, Account type (Business), Institution name, Account holder name, Account holder email, Account holder address, Account holder postal code, and Account holder city. A 'Next step' button is visible at the bottom right.

***If you are having trouble finding your routing info, view this [article](#).**

****Here is a list of all supported institutions for the 'Login Online' feature**

Once authorized, funds will arrive in your account within 2-3 business days. You will email notifications along with a real-time tracking link for each payment that is sent to your account.

What's the benefit to me?

- **Save time and money:** Once authorized, funds will automatically be deposited into your account - you are not charged for accepting any payments.
- **Added security:** Direct deposits are a highly secure payment method because funds are transferred directly between banking institutions.
- **Full transparency:** When a payment is initiated to your account, you will receive a tracking link that lets you monitor the payment status in real-time.

Trusted and regulated across Canada
